GARMENT

Maji Ladies Jacket, 60% Cotton 40% Polyester, cream with black lapel

PROBLEM

In one instance there was severe colour bleed from black polyester collar and cuffs

SOLVENT

Perchloroethylene

CARE LABEL

Dry Clean in Perchloroethylene, Circle P underlined

RESTORATION

Colour bleed can be removed by pre-spotting and re-cleaning, this may have to be repeated several times. Damage may be caused by excessive mechanical action, or warm solvent.

RESPONSIBILITY

Manufacturer

“Obviously we cannot say that other items of the same type will have the same problem, or that a different method of cleaning may have had a more satisfactory result, because this was not tested, but we advise caution and that you carry out your own test if you are going to clean this type of garment.”
