## Zegna Sport Gillet/Body warmer

Well labelled stating can be hand washed but when the customer did the colour from the zip area ran in to the silk outer fabric.

The customer paid a visit to the dry cleaner asking for help in restoration.

The problem of dye run was from a leather strip sewn between the zip and the outer fabric and to remove the dye the cleaner had to first fix the loose dye without fixing the dye on the silk fabric.

Then the loose dye was washed off and the cleaner had a happy customer.

"Obviously we cannot say that other items of the same type will have the same problem, or that a different method of cleaning may have had a more satisfactory result, because this was not tested, but we advise caution and that you carry out your own test if you are going to clean this type of garment."
